Sand, surf, and seminars

Manhattan Beach, CA

Dr. Gerard Chiche

"The Esthetic Zone Inside and Out"

This fourth edition interactive program will present a step-by-step approach to treat esthetic rehabilitations with improved esthetics, and predictable, functional results. It will cover critical details of porcelain veneers and all-ceramic crown techniques in terms of system selection, cement and adhesive selection and bonding sequence. It will also cover occlusal management strategies of esthetic cases in order to minimize porcelain fractures and complications. The seminar offers unique continuing education opportunities in an intimate group setting.

Dr. Chiche will share invaluable practical tips from setting up a case, ceramics management, cementation selection, and step-by-step bonding technique including occlusal management strategies of esthetic cases in order to minimize porcelain fractures and complications.

8 CE Credits

Ariel J. Raigrodski DMD, MS

"All-Ceramic Restorations for Digital Dentistry"

This dynamic program will provide knowledge and understanding of treatment options using various ceramic materials for all-ceramic restorations. Material properties such as esthetics and strength will be presented including comparisons between the different ceramic materials currently on the market. With an emphasis on zirconia, the program will review advantages and limitations of complete coverage restoration design options, such as monolithic, layered, and hybrid designs, and their effect on durability and esthetics of all-ceramic restorations.

Attendees will learn how the advent of CAD/CAM technology supports the fabrication of these restorations in the dental laboratory. Comparisons of the unique properties of traditional zirconia versus newer translucent zirconia will be reviewed. Comprehensive case examples will demonstrate the use of zirconia-based restorations as part of an interdisciplinary treatment approach.

4 CE Credits

Seminar Schedule

FRIDAY (8 CE credits)

7:00 am - 7:50 am Registration / Breakfast
7:50 am - 8:00 am Opening Remarks
8:00 am - 12:00 pm Lecture: **Dr. Gerard Chiche**
"The Esthetic Zone Inside and Out"

12:00 pm - 1:00 pm Lunch
1:00 pm - 5:00 pm Hands-on: **Dr. Gerard Chiche**
"All-Ceramic Preparation Workshop"

6:30 pm - 9:00 pm Dinner with **Dr. Chiche** and **Dr. Raigrodski***

SATURDAY (4 CE credits)

7:00 am - 8:00 am Registration / Breakfast
8:00 am - 8:30 am Opening Remarks and Sponsor Forum
8:30 am - 11:30 am Lecture: **Dr. Ariel Raigrodski**
*"All-Ceramic Restorations for Digital Dentistry-
A Comprehensive Approach to Material Selection
and Restoration Design"*
11:30 am - 12:00 pm Live Demonstration: **Dr. Ariel Raigrodski**
"How to Bond Zirconia"

*Dinner starts at 6:30pm at The Strand House.

RSVP required on registration form. \$120 per person
