Cusp/ADES Symposium 2025

Thursday, September 25
Hyatt Regency Boston/Cambridge
Charles View Ballroom, 16th Floor
575 Memorial Dr., Cambridge, MA 02139

Celebrating 35 Years of Cusp

2025 marks a major milestone — 35 years of clinical partnership, innovation, and excellence. Join us in honoring this legacy, and our exciting move to a new home earlier this year.

Guest Speaker — Ariel J. Raigrodski, DMD, MS, FACP – Lynnwood, WA

“The Evolution of Zirconia from Framework to a Monolithic Restorative Material: An Evidence-Based Clinical Perspective”

This lecture delivers a clinical update on zirconia as a restorative material, from its early uses to today’s highly esthetic, monolithic applications. Dr. Raigrodski will explore modern zirconia types—including translucent and polychromatic options—and demonstrate how design choices impact outcomes in natural and implant-supported restorations.

2 CE Credits

PROGRAM

6:00pm - 6:30pm	Registration Open / Light Dinner
